Highly Qualified

Exemplary maintenance services

We are proud to have a team of highly qualified engineers and mechanics who apply the best international standards and practices. Our experienced team is always ready to take care of your aircraft 7 days a week.

As a CAR Part 145 and EASA Part 145 certified facility, we offer highly efficient and cost-effective line maintenance services and AOG support. This means that we comply with all aircraft maintenance operations and continued airworthiness programmes. We can also provide CAMO services when requested. Whatever your maintenance needs, we are fully qualified and ready to serve you.

At a glance.

- Line maintenance for Global Express, Challenger 604/605, Falcon 900EX and Falcon 7X/8X along with limited Airbus A320 series support.
- EASA Battery CAP Check and Overhaul
- Overhaul and renewal of cabin equipment with the support of local partners
- 24/7 spare parts supply, procurement and storage
- Maintenance and airworthiness certification
- Development and management of maintenance programmes
- Pre-purchase and technical inspections
- Construction supervision, delivery, and handover inspections of new aircraft

Safety

Our commitment to your safety

DC Aviation GmbH's efforts go a long way to deliver the highest levels of quality and standards for your safety. As a certified aircraft operator since 1999, we are one of only three business jet operators worldwide to have been audited to the IATA's IOSA standards since 2007. At DC Aviation Al-Futtaim, we are following in the footsteps of our mother company in Germany by consistently delivering excellence. As such, we are proud of our renowned levels of safety.

At a glance.

- Wyvern certified
- ETOPS 120 authorisation since 2001
- ETOPS 180 authorisation for the Airbus A319CJ VVIP fleet
- Non-ETOPS 180 authorisations for most other business jets
- Low-visibility operation (up to category CAT IIIb)
- Guarantee of safety, performance and service
- Unrestricted authorisation to operate flights to the USA (FAR 129 permit) since 2001
- Pilot selection to airline standards programme by an independent assessment centre
- Maintenance EASA Part-145
- Maintenance EASA Part-M
- Certified VIP Excellence Programme for flight attendants
- Regular security checks of all 330 employees
- IS-BAH™, The International Standard for Business Aircraft Handlers stage (1) and (2) certificate

Maximum Mobility – Minimum Cost

Valuable consultancy services

When it comes to choosing a business jet that best suits your specific needs, there are several important questions to consider. How much will it cost to buy, and operate? How can you maximise the return on your investment and minimise the cost? Every decision you make when purchasing a business jet can significantly impact your company's efficiency, revenue, earnings. It can even affect your personal assets if you are a private owner.

Fortunately, our years of experience mean that we are uniquely able to assist you in making the right decisions at every stage of the process. That is why we encourage you to take advantage of our expertise when planning your jet purchase.

We can assist in choosing the right model for you while taking all procurement and operating costs into account. We also offer a wide range of services for the safe and economical operation of your business jet. Furthermore, we can help reduce your operating costs by the optimal marketing of your aircraft.

Contact us for more information on how we can assist you in procuring and operating your business jet.

At a glance.

- **Benefit/needs assessment:** Together, we will determine the best type of aircraft for your specific needs and budget.
- **Individual operating model:** We will prepare the entire budget, including financing, subsequent costs and the calculation of potential income from third-party chartering.
- **Aircraft assessment:** We will provide you with a detailed technical and financial evaluation of suitable aircraft available on the market. We can also provide valuable advice regarding technical equipment and cabin design.
- We provide expert advice on financing and insurance options.
- We offer reliable professional support during the aircraft delivery process.
- **Customized cabin interior design:** If needed, we can optimize the cabin according to your specifications, or refurbish and clean the furnishings of used aircraft.
- **Crew deployment:** We take care of recruiting, licensing, and continuous training of cockpit and cabin crews.
- **Aircraft maintenance and safety tests:** Our experienced maintenance team will guarantee that the planning, monitoring, and execution of technical aircraft maintenance will be to airline standards.

About Us.

DC Aviation Al-Futtaim LLC is a joint venture between DC Aviation and Al-Futtaim.

DC Aviation

DC Aviation is a German business jet provider headquartered in Stuttgart. The company has gained comprehensive experience in aircraft management during its 22-year corporate history. Today, DC Aviation offers a complete portfolio ranging from aircraft management via aircraft charter to the maintenance of business jets and handling services. The company runs one of the largest and most versatile business fleets in Europe. Its fleet includes the Cessna Citation XLS+, long distance jets such as the Gulfstream G650 and large-cabin jets like the Airbus 319 CJ.

Al-Futtaim

Established in the 1930s as a trading business, Al-Futtaim Group today is one of the most diversified and progressive, privately held regional businesses headquartered in Dubai, United Arab Emirates. Structured into five operating divisions; automotive, financial services, real estate, retail and health; employing more than 42,000 employees in more than 20 countries in the Middle East, Asia and Africa, they partner with over 200 of the world's most admired and innovative brands.
